

Free Websites for Your Homeschool Toolbox

Disclaimer: As with any website-please monitor and decide for your family if it's appropriate. Websites can change content quickly, so use discretion. These sites are not necessarily Christian worldview.

<https://www.nasa.gov/stem> - Has a huge amount of Science, Technology, Engineering and Mathematics for students and teachers. You can browse by grade level, download free activity books, watch videos of moon landings, and so much more!

<http://www.sheppardsoftware.com/> - A favorite! This site has free games and learning activities in all sorts of subjects. Language arts, health, science, math, geography, animals, preschool, etc. Learn African geography here: http://www.sheppardsoftware.com/African_Geography.htm

<https://kidshealth.org/en/kids/center/htbw-main-page.html> - How the Body Works has engaging videos, quizzes, and printable activities all about human body. Also has section for teens and parents.

<https://physicscentral.com/explore/comics/> - Physics website – this link takes you to comic books all about physics.

<https://www.mathsisfun.com/> - very helpful resource for math, you can print off worksheets, create your own worksheets, find out how to do math concepts, etc.

<https://www.worldatlas.com/> - helpful for geography

<https://www.k12reader.com> – This is a HUGE resource for reading, writing and spelling! You can print off worksheets for all grade levels – so helpful!

<http://www.eastoftheweb.com/short-stories/indexframe.html> - great site for short stories

<https://allinonehomeschool.com/> - This is a curriculum website, all free. It covers all the typical subjects. It's an online curriculum, with printable grading sheets and worksheets.

<https://www.internet4classrooms.com/> - All kinds of resources. I've found the math skill builders to be helpful.

https://www.kidsofcourage.com/?page_id=166 – a wonderful site to introduce kids to persecuted Christians around the world.

<https://www.storylineonline.net/> Great site for finding children's books that are read to them by video – it shows the pages of the book and has a bit of animation.

<http://www.watchknowlearn.org/> Free educational videos on all kinds of topics.
