

Blohm Flying News: Phil, EJ & sons

Redeemed, rejoicing, and relief

December 2021

“Look, sister! It’s daddy and grandpa!” R and A looked out the AIM AIR hangar doors with excitement and relief. Finally, after two years of restoring a damaged Cessna 206, the AIM AIR team could take it out for its first test flight. With their mechanic dad and pilot grandpa in the cockpit, the girls prayed for a safe flight. God answered!

Rejoice with us that this plane is back in the fleet. Our maintenance crew inspected it with a fine toothed comb, repaired damaged parts, installed a new engine, and gave the plane a new paint job.

Even though the circumstances surrounding the forced landing in 2019 were expensive and frustrating at the time (no one was hurt!), God used it to plant a church in that region of northern Kenya where no church had previously been. **Rejoice!** God has a way of

redeeming bad things, making them good. (Isaiah 61:3) *Pray that this 206 airplane will continue to be used for God’s glory as it transports people and supplies to remote areas of East Africa.*

Missionary Eddie, in northern Kenya, called AIM AIR recently for help. Lack of rain had caused drought conditions, and fighting tribes in the area caused supply trucks to cancel their deliveries. AIM AIR stepped up and flew in over 5 tons of famine relief! Eddie and his family rejoiced! *Pray for rain and peace in this region of Kenya.*

AIM AIR Pilot Dan had a heartfelt trip into South Sudan recently. Partnering with Samaritan’s Purse medical team, he transported cleft lip patients from remote village into the capital city of Juba for life changing surgeries. So many of these children and adults are shunned and rejected. After surgery, he was able to fly them back home amidst great **rejoicing** on the airplane – **redeemed** and renewed for life without debilitating cleft lips. What an honor to be able to participate in God’s **redemptive** plan for these precious souls.

Rejoice with this momma, whose daughter had cleft lip surgery! The relief and joy she felt resonated on the entire flight home.

We wait in anticipation for our oldest sons to join us for a short visit over New Years! **Rejoicing!** It’s been a few year since Andrew, Benji & Michael have been in Kenya. *Pray for their travels!*

We pray for YOU, that you will experience true rejoicing in God’s redeeming power in the New Year. Blessings from Phil & EJ Blohm & Matthew

Phil’s Quality Manager interview has yet to happen. Aviation officials told him to wait, again. We will be relieved when it occurs in 2022!
