May 2022

Home Assignment (furlough) is the time for us to share **reports** about our ministry with churches and supporters, as well as connect with new partners to **rebuild** our budget. It's a great time to **reconnect** in person. It's also a time when we are encouraged to **rest, reflect, renew** and **reset**. Pray for us during these months ahead, it's a lot to balance!

Pray for travel safety as we criss-cross the country, good connections with people, for the van to run smoothly, health for the three of us (Matthew is our only son joining us this time as the older three have to work), and for our monthly support base to grow.

We are so thankful for the many faithful prayer and financial partners who are investing in our ministry with AIM AIR in East Africa. THANK YOU!

We need to raise about \$500/month to meet our support target set by our home office before returning to Kenya in December.

Would you consider joining (or rejoining) our support team?
