# Blohm Flying News

Phil & EJ and sons

AIM AIR recently flew Voice of the Martyr's leaders into Central Africa Republic for an 8 day scouting trip. They collected stories and information from the persecuted Christians in the area, identifying places where more help is needed. It was exciting for our pilots, as they were able to fly into 9 airstrips that we had never been to before. We praise God that the flights went smoothly!

Partnership with local churches in South Sudan brought an opportunity to fly church leaders: 21 minute flight vs 14 hours through swamps. We've also flown translation workers as they work to translate the Jesus film into new languages.

Closer to home, Phil is quickly getting caught up on the big Kenya Civil Aviation audits from last fall. Manuals are getting signed, stamped and approved. He's working out a schedule for this year's internal audits to happen. Pray for him as he organizes and implements these audits. He's also on the Managerial team, which comes with a lot of meetings and decisions.

We recently hosted one of our Uganda based pilots – he and Phil are good buds! We also had our boarding school student for a long weekend in February. March looks to be full of hosting as well.

EJ homeschools Matthew (9<sup>th</sup> grade) and has recently begun tutoring a teammate's little boy in reading/writing. What a joy to pull out the tips and tricks of the trade with this precious young one. She also continues serving in Member Care and encouragement.

Visit our website for her latest Bible reading plan!

Thank you for sharing in our journey in Kenya! YOU are an important part of all the good things that God is doing! *Phil & EJ Blohm*
